

your own *hub*

the BLUESOFT *hub* Official Searches Online

- Need your own hub for official searches?
- Paying hub fees to others?
- Official searches processed by you but with someone else's company name on them?

The award winning Bluesoft hub can now be white labelled as your own.

Implement a single process for all official searches. No more filling out LLC1, CON29R and CON29O.

The hub integrates your orders with the local authorities and handles the wide range of paper councils to hub users.

Save money. No more hub fees.

Raise your profile with your own hub and win more business.

Transmit your Official Searches using XML to your Hub. Return all searches to solicitors electronically.

Quick and reliable and available 24x7. The tried and tested, independent Hub.

Efficiently process 5, 50, or 100 orders every day in your hub.

Your OWN hub: Official Searches for any Local Authority in England & Wales

► More Revenue

Lower hub fee
Money to the bottom line or / and cheaper searches

► XML Interface

Send the address via XML to your hub.
Email completed orders to the solicitor.

► Online Ordering

Integrate your ordering system via XML

► Reliable

The Bluesoft solutions first went live in the Property Searches Market in 2004.

► Automatic LLC1 & CON29

We identify the Local Authority and create an equivalent LLC1 and CON29

► Electronic Payments

The hub manages different payment methods for each LA: credit card, bacs, cheque.

► Scanning

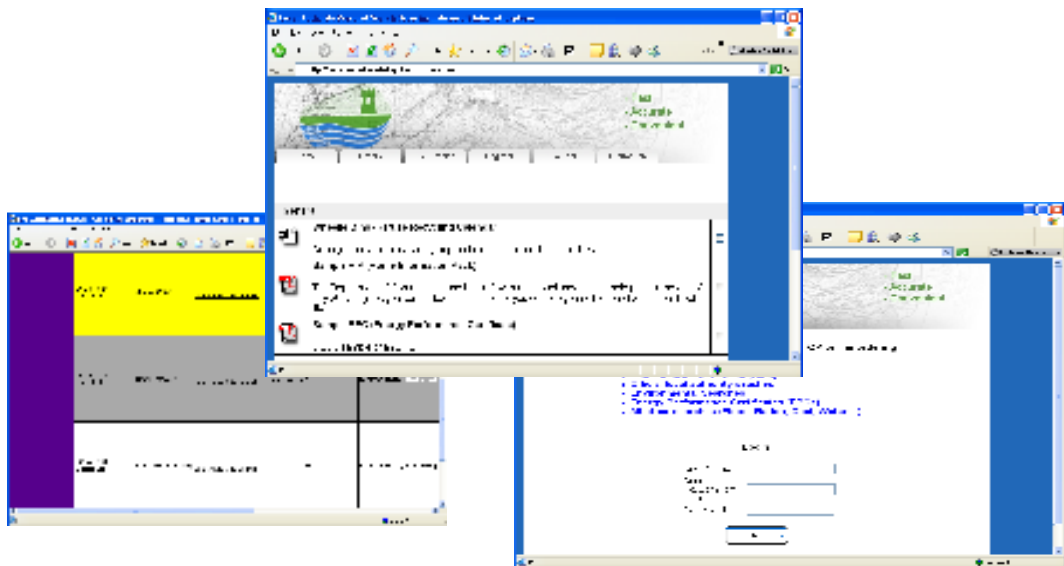

For some LAs, scan their search to the hub

► Alternative HUB

Display your company name on the searches
Market your own hub

Your *hub* benefits:

Independent alternative Hub
Lower transaction fees
More revenue

The Hub can easily be adapted to meet any special needs your organisation may have.

Approximately 1 million properties processed through Bluesoft websites and databases. Our products won accolades from BCS (British Computer Society) of CRM and GIS Winner. BCS showcase organisations with vision and business skills implementing highly successful projects using leading-edge technologies.
